

DIAMOND DA40 OWNERS:

See Better. Fly Safer. Upgrade to BoomBeam™ HID Lighting.

UPGRADE YOUR DA40
TO THE BOOM BEAM HID
LIGHTING SYSTEM FOR ONLY \$1,999!

LoPresti
BOOM BEAM HID

BoomBeams™ are 9 times brighter than halogen and 3 times brighter than current HID lights.

Available exclusively from Premier Aircraft Service.

See and be seen is the best safety practice any pilot can have. And now with the LoPresti Aviation BoomBeam High Intensity Discharge (HID) Xenon lighting system on your Diamond DA40 you'll see better at night and be seen better all the time.

How much brighter will your DA40 be? You will be the "brightest star in the sky." **BoomBeams are 9X brighter than halogen and 3X brighter than current HID lights.**

The DA40 BoomBeam features LoPresti Aviation's patented intermediate range reflector design, which captures all the available light from the HID Xenon bulbs and beams it out in front of your aircraft for dramatically improved visibility in the air and on the ground. While the intermediate range beam actually has a very long range, it also delivers a much larger "footprint" on the runway and taxiway. Better visibility means greatly enhanced safety.

The BoomBeam HID lighting system is installed and supported by your #1 Diamond aircraft service center.

As a division of North America's largest Diamond Aircraft dealer, nobody knows more about supporting and improving the performance and value of your Diamond DA40 than Premier Aircraft Service.

Our Diamond experts worked closely with the LoPresti Aviation team to develop the BoomBeam HID lighting system for the DA40 and now the upgrade is available exclusively at our Fort Lauderdale Executive Airport (FXE) facility.

For more information about the LoPresti BoomBeam HID lighting system or our other DA40 upgrades including the CabinCool Air Conditioning or PowerPlus Standby Alternator, please call Ray Bysiewicz at: 866.875.4347 or email: Ray.Bysiewicz@flypas.com.

*Price is subject to change without notice. BoomBeam is a Registered Trademark of LoPresti Aviation.
