

# **MOONEY OWNERS:** Upgrade to Monroy long-range fuel tanks and get more of what you bought your Mooney for.

**PREMIER AIRCRAFT SERVICE  
WILL INSTALL YOUR MONROY  
LONG-RANGE TANKS FOR \$12,900!**

## **MORE RANGE!**

By adding the Monroy fuel tanks into the wings you can enjoy up to a 69% increase\* in range for Mooney M20C/E models and up to 33% for Bravos and Ovations\*. Depending on power settings and weather conditions, this could net you over 500 nautical miles more range.\*\*

## **MORE SPEED!**

With more fuel you can cruise at higher power settings and truly enjoy the higher cruising speeds Mooneys are famous for. On longer trips, the added fuel means you can go direct, saving you time and money.

## **MORE SAFETY!**

The Monroy long-range fuel tanks also give you the flexibility to fly your usual trip and land with greater fuel reserves. That means you fly with greater peace-of-mind – especially in IMC conditions.

### **Increase your Mooney's performance and lower your income taxes.**

Did you know that the cost of purchasing and installing the Monroy long-range fuel tanks could qualify for 2009 bonus tax depreciation?

According to the new rules, the 2009 bonus depreciation extends to new improvements to used aircraft. For example, purchases of new avionics, engines and other upgrades would qualify for bonus depreciation. **Bonus depreciation ends December 31, 2009 so don't delay!**

Everyone's tax liability is different so it's important to contact your personal tax advisor for information about your specific tax situation before making a purchase decision. You can also contact aviation specialists Advocate Consulting Legal Group at: 888.325.1942 or visit: [www.advocatetax.com](http://www.advocatetax.com).

### **The Monroy long-range fuel tank upgrade is installed and supported by your #1 Mooney service center.**

As a division of North America's largest Mooney dealer, nobody knows more about supporting and improving the performance and value of your Mooney than Premier Aircraft Service.

Located at Fort Lauderdale Executive Airport (FXE), our Mooney experts are ready to install the Monroy long-range fuel tanks and provide other valuable services for your Mooney.
